LOAD ORDER CARD - PROMASTER

Carolina Quality Air · Van Reset

Laminate. Lives on the inside of the rear door. Same order every time; if a slot is empty, something is missing before you leave.

FIXED

Reelcraft air reel + compressor, front left wall, strapped.

1

Neg air machine: pocket behind the slide door (right side, between door and rear wheel well). Strap to wall.

2

Pressure washer: tuck in next to the neg air, forward of the wheel well.

3

Electric vac, fog machine, fans: front stack, in front of the compressor line.

4

Chem locker / labeled bins: front stack, left. Nothing loose on the floor.

5

Rod tubes on the left wall, high, above the load line. RED tube = dead rods only.

6

Whips and balls: hooks next to the rod tubes. Empty hook = missing.

7

Vac hose: snakes into whatever voids are left, last.

8

Ladders: on top of everything, strapped. Short ladders + gas cans in the rear pockets.

9

Clean rags: mesh bag on a hook. Dirty rags: bucket with lid. Never mixed.

10

Walk the rear door: sheet in the pocket, straps tight, ramp clear, nothing above the window line unstrapped.

Chronic losers (screwdrivers, utility knives, rags, cord adapters) have a labeled home. If it's not in its home at load-out, it gets replaced from the shop

REPAIR & REORDER LOG

Carolina Quality Air · Van Reset

One line per broken or missing item. Fixed on-site today, or ordered today. Nothing broken goes back in circulation.

[illegible]

FLEET STATUS NOTE - MONDAY MORNING

Van 1 Van 2 Van 3 Van 4 Box truck Trailer

INVENTORIED AGAINST SHEET

Every van has a sheet in the door pocket: Y / N Sheets updated: Y / N

REPAIRED ON-SITE TODAY

ORDERED TODAY (ITEM, VENDOR, \$, ETA)

TOSSED / QUARANTINED (RED TUBE / RED BIN)

STILL MISSING, NEED JEFF'S CALL

NEXT SUNDAY'S FIRST JOB

SUNDAY WITH JEFF - QUESTIONS & DECISIONS

Carolina Quality Air · Van Reset

For Ben's pocket, not for Jeff. Check them off as they come up naturally.

☐ **Mailer**

Place the 55printing order in front of him, \$323.28. Confirm the 3 routes. Ask: keep C004 (Tryon Place, +\$182 postage) or drop it.

☐ **Print guy**

His Greenville printer: \$800-900 per neighborhood. How many pieces, postage included? (For the record, not to argue.)

☐ **Logo file**

Who did the truck wraps? Get the original vector logo. The site's logo reads 'Polution', the mailer now says 'Pollution'.

☐ **Sprayer**

What coating do they use for encapsulation, and what sprayer model? (Fiberlock spec: .019-.023 tip at 2,500-3,000 psi. If it's a consumer unit, that's the clogging.)

☐ **Reviews**

CQA has 7 Google reviews vs 200-3,000 for competitors. Ask for a yes on a crew review push: text link after every job, \$ bounty per review. Free.

☐ **Google Business Profile**

Who has the login? Get access so job photos can post weekly.

☐ **Green Road**

Pre-bid Sep 3, optional for subs. Go or skip? Quote blast to the 8 mech primes is drafted, Bolton first.

☐ **Onslow CN1111N-2**

Quote due 2 PM Sep 4. Needs his pricing on the 39-school cleaning table plus EIN and signer. Anderson comp \$325-375 per cleaning.

☐ **TAA**

Supplier membership \$621 + \$65 app. Apply Oct 1 so dues roll into 2027. Yes in principle?

☐ **Restoration accounts**

Which Servpro / Sasser / other restoration offices send work, and who's the PM at each? (Account map for the sub list.)

☐ **Facilities crowd**

Where does Perry actually run into the maintenance guys? Supply houses, specific buildings, associations? IFMA Triangle and BOMA are the formal versions.

☐ **Customer list**

Can Ben get the past-customer list for a reactivation text/postcard? Highest-converting play on the board.
